

# Invest in your workforce with JFF's Fair Chance Corporate Cohort

Grow your business with workers who will grow with you

Jobs for the Future's Fair Chance Corporate Cohort is an innovative eight-week program designed for corporate leaders who want to invest in their company's growth by creating inclusive hiring practices for qualified candidates with records of arrest, conviction, or incarceration.

## How it works:

## Participants commit to:

-  One hour of independent study per week
-  Weekly two-hour interactive sessions
-  Team collaboration in developing implementation plans

During the cohort, participants will complete online modules and interactive sessions that assess their company's current practices, challenge biases, and create implementation plans tailored to their company's specific goals and needs.

## Upon completion, participants will gain:

- **Deep understanding** of fair chance employment principles
- **Enhanced communication skills** for internal and external messaging
- **Practical tools** for integrating fair chance employment initiatives

Investing in your workforce is the best investment a business can make. Let JFF help you.
